

Non-Conventional OS

GROUP PRESENTATION

Group assignment – two (2) persons per group.

PLO3: present findings of study related to existing operating systems. (CS, A3)
(membentangkan hasil kajian berkaitan sistem pengoperasian sedia ada.)

Objective:

To assess students' communication skill in presenting findings of study related to existing operating systems.

INSTRUCTION:

The topic of presentation is related to **Non-Conventional OS** (Chapter 9):

1. What is non-conventional OS? The concept, the difference from conventional OS, etc.
2. Mobile and Embedded OS
3. Multi-platform OS
4. OS Environment for Games

Each group shall **CHOOSE ONE** of the above topics (1-4), and prepare the detail contents, with references.

Maximum only 2 groups for each topic.

GROUP PRESENTATION

- The assignment should be presented in class, based on the presentation schedule.
- Submit a copy of your presentation slides through the PutraBlast (by only one person/representative from the group).
- Evaluation will be based on the contents and presentation skills.
- Presentation:
 - 10 minutes for each group, including Q & A session
 - Each member of the group must take turn presenting
 - Presentation should be in English

ASSESSMENT:

- The mark for this knowledge sharing session is **10 marks** (10%)
- You will be assessed based on:
 1. Content = 5 marks (group marks)
 2. Presentation skill = 5 marks (individual marks)

Assessment criteria for presentation skill:

- Clear voice
- Fluency and confidence
- Body language, eye-contact, gesture
- Appearance
